

Current Liquor Sales and Projections

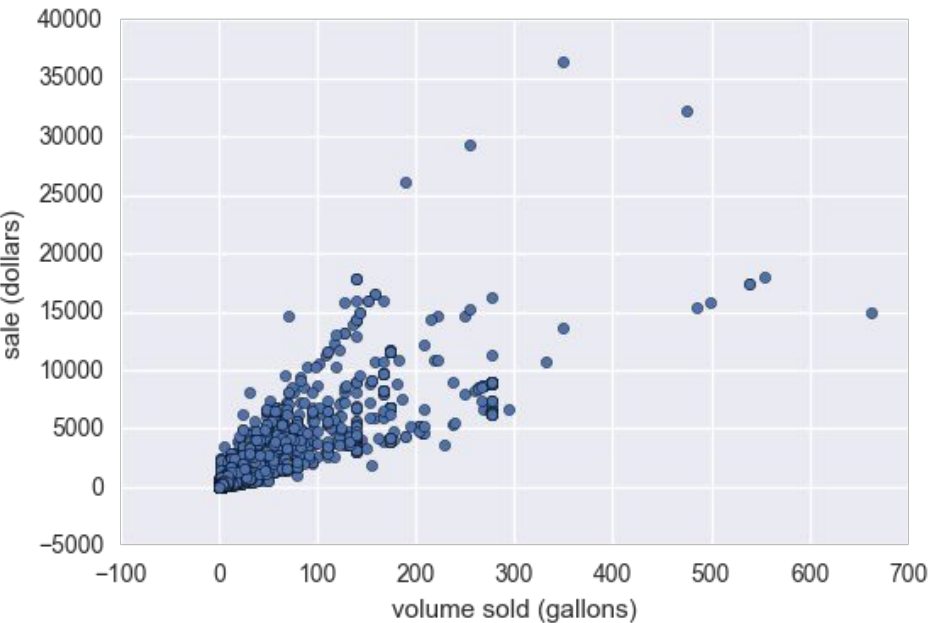

By Najiyah Khan

Sales by quarter

Some outliers exist - in Q1 and more so in Q4

Volume sold in relation to amount of sales

The number of gallons sold is clustered between 0-100. The outliers require further analysis.

In conclusion:

Deeper analysis of the data presented is required to present a full understanding of current liquor sales which will offer clear predictions of sales in the remaining quarters of 2016.
